

# CHEMICAL INDUSTRY

**The team of experts behind RDA India thinks globally, acts locally, advises individually, and yet has an eye on general social and market-typical sensitivities.**

RDA BULK PACKAGING INDIA PVT. LTD. OFFERS A WIDE RANGE OF FIBCS (FLEXIBLE INTERMEDIATE BULK CONTAINERS), ALSO KNOWN AS BULK BAGS. THE COMPANY IS A SISTER COMPANY OF RDA BULK PACKAGING LTD., WHICH HAS THE IDEA OF SUPPLYING HIGH-QUALITY BULK PACKAGING MATERIAL AND HAS SUCCESSFULLY BEEN CATERING TO CUSTOMER'S NEEDS FOR THE LAST 25 YEARS. WE NOW BRING THIS WEALTH OF EXPERIENCE AND EXPERTISE WORLDWIDE, DELIVERING PREMIUM QUALITY AND SERVICE DIRECTLY TO LARGE-VOLUME BUYERS ACROSS THE GLOBE. WE ARE EXPERTS IN OPTIMISING COMPANIES' FILLING, TRANSPORT, AND STORAGE CONDITIONS, OFFERING ECONOMICALLY PROFITABLE AND ENVIRONMENTALLY FRIENDLY SOLUTIONS. IN ADDITION TO FIBCS, WE OFFER A VARIETY OF OTHER PRODUCTS, INCLUDING WOVEN POLYPROPYLENE SACKS, SANDBAGS, GARDEN WASTE COLLECTION BAGS, POLYTHENE BAGS, LINERS, AND MORE. WE CAN ALSO MANUFACTURE PRODUCTS TO MEET SPECIFIC CUSTOMER REQUIREMENTS ON A CONTRACTUAL BASIS. THEY ARE WELL-EQUIPPED TO CATER TO ALL INDUSTRIES WITH THEIR DIVERSE RANGE OF BAGS, ENSURING THAT ALL NEEDS ARE MET.

## INNOVATION BEHIND OUR PRODUCT

### FSSC 22000 COMPLIANCE

All manufacturing facilities are FSSC 22000 compliant with complete traceability within the production process.

### METAL DETECTION

All bags must be inspected through a metal detection machine before packaging on pallets.

### HEAT-TREATED PALLETS

Heat-treated pine wood pallets are used to pack the bulk bags.

### NICKEL AND LEAD

All the raw materials we use to manufacture the bags are nickel- and lead-compliant and certified for production in food and pharma-grade packaging.

### BAG CLEANING MACHINE

All bags are cleaned through a vertical high-air pressure vacuum cleaning machine to remove any dust or contamination during production.

# Product Range

## Spout Bag

- Spout bags allow precise filling and discharging of materials.
- Ultra-sonic cutting to avoid contamination.
- Vertical air vacuum bag cleaning machine.
- Metal detection.
- Conductive FIBC spill bags for secure handling of flammable substances.

## Baffel Bags

- Optimal efficiency.
- Tailor-made.
- Easy to handle.
- Cost-effective.
- Liner to protect hydrophobic products.

## Type C

- They are supplied with or without a liner.
- Various filling and discharging options.
- Preservation of food quality and flavour.
- Optimization of truck and container loading.

## Type D FIBCs

- Ideal for flammable materials in hazardous environments.
- No risk of sparks or brush discharges, ensuring safe transmission.
- Compliant with IEC 61340-4-4 safety standards for explosive atmospheres.
- Anti-static fabric safely dissipates electrostatic charges without grounding.

RDA India offers products that meet modern customer requirements, the highest market requirements, and the collective demand for a sustainable recycling cycle. The service provider works exclusively with certified and tested products, ensuring customers can always rely on compliance with valid quality standards. All of the manufacturer's packaging materials are manufactured using the latest technical developments, providing a reliable solution for your packaging needs. In addition, customers have the option of customizing all bulk bags according to their personal preferences.

## **RDA India can supply bulk bags manufactured...**

From raw materials to hazardous compounds, bulk bags play a critical role across the chemical industry. Many bulk bags designed for this sector come with specialized filling, top closure, and discharge options to ensure the safety and integrity of the product. These features are crucial, as many chemical products must be securely contained, shielded from contamination, and handled carefully during transportation and storage.

**RDA India offers several off-the-shelf stock options for immediate delivery.**

## WHAT'S NEW WITH OUR PRODUCT?

---

- The uncoated fabric ranges from 110 to 245 gsm (grams per square meter).
- The bags can be printed on up to 4 sides using three colours.
- They are available in coloured fabric.
- They can be designed with a U+2 or circular design.
- The bags can have either a single or two-loop lift.
- Different top attachments, such as skirts or fill tops, are available.
- Various attachments, like a discharge spout, can also be included.
- Our bags are not just versatile but also eco-friendly. They are tax-compliant and contain 40% recycled content by weight.

## WHAT RDA CAN DO FOR YOU...

---

- We always provide fully certified, high-quality products.
- We offer competitive prices.
- We have a comprehensive inventory management system for all your bulk bag needs.
- We can warehouse up to 6 months of your required stock, reducing lead times and helping with your cash flow.
- Your business will be allocated an account manager who can be contacted anytime via phone, email, or a scheduled personal visit.
- We are committed to providing excellent service.

"Experience the power of flexibility, strength, and cost-effectiveness! We are committed to providing you with top-notch products."
