## INNOVATION BEHIND OUR PRODUCT

### VENTED BAGS

Vented bags are ideal for logs. These are multi-trip bags with loop weir protection and tipping loops at the bottom.

### MOSQUITO NET BAGS

All four sides are made of mosquito nets to provide better breathability.

### GARDEN WASTE GREEN BAGS

These 100% recyclable bags are available in stock with the option of delivery in a single unit.

### VENTS + MOSQUITO NETS

These unique bags have two sides of 26-vent fabric and two side mosquito nets.

### LENO SKIRT BAGS

These bulk bags have a body of vented fabric and a top skirt made of Leno mesh.

## **RDA India can supply bulk bags manufactured...**

From wood chips to bark, bulk bags are essential in the timber and forestry industry. These bags have various filling, top closure, and discharge options, making them ideal for handling and transporting sawdust, logs, and mulch. Durability and weather resistance are crucial to ensuring the products inside remain dry, clean, and protected from external elements during transportation and storage.

**RDA India offers several off-the-shelf stock options for immediate delivery.**
